## Conference Chair- Welcome Message:

Dear Colleagues,

It is my distinct pleasure to invite you to participate and speak at the Global Meet on Sensors and Sensing Technology (GMSST2022) which will be held during 20-22 June 2022 in Rome, Italy.

The field of sensors and sensing technologies is an exciting area that is becoming a more and more important part of our modern world. Advances continue at a rapid pace, and the use and application of sensors are expanding continuously, including sensor materials, chemical and gas sensors, biosensors, optical sensors, wireless sensors, acoustic sensors, smart sensors, sensor networks, Internet of Things (IoT), remote sensors, environmental sensors, and also a host of other areas. The GMSST2022 conference provides a forum for both the latest developments in sensor advances, as well as their use in a variety of applications.

I am very pleased to invite you to take part in GMSST2022 which brings together research scientists, engineers, and practitioners from around the world to present their latest research, ideas, and applications.

**Prof. Robert Minasian, FIEEE, FOSA**
